

DEAR FCC, It has come to my attention of your intentions to lessen or lift Indiana's Telephone Privacy law protection. I am strongly against this action! This protection under this law leaves me with more time around my own home without annoying phone calls. Before the law was passed some times I was recived 5-7 calls a week! Now I can only expect maybe 1 call a month from a non-profit organization. The hoosiers on this list have spoken.. we dont want bothered by telephone calls. I used to even receive calls up to 9 pm! This I strong do not wish to tolerate. Please consider my complaints and statements. If your actions occur, I will be forced to no longer support the FCC
